**Approved by N.C.C.A.O.M. for 15 C.E.U.s**

“Yesterday Dr Kaufman did the Inferior Cervical Sympathetic Ganglion Technique (from the Sympathetic Protocols) for the weakness in both my arms. My arms cramp up so much after I treat people. I've been a chiropractor for 35 years and lately every day I think I have to retire because I can't keep on doing this. My arms start hurting so much. I had feelings of cold in both my arms and also pain after using them.

“Immediately something felt like it was happening during treatment. Today my arms are freer for the first time, and they're warmer. My hands are also much warmer.

“Update 2 weeks later: Since treatment at the seminar with the left inferior cervical ganglion my arms have much improved!!!” **Adrian (DJA) Jasperse, D.C. Netherlands**

“Dr. Kaufman performed the Adrenal Protocol on me at the seminar. I've been suffering with adrenal insufficiency and lack of energy for the past 10 years. During the treatment I felt a surge in energy and my circulation and metabolism were given a boost also. I feel a calm energy and look forward to my renewed sense of well-being.” **Sorina Durante, L.M.T. Lakewood, New Jersey**

“In 2003 I had a total hysterectomy after being diagnosed with a large mass on my right ovary and grapefruit sized uterine fibroid tumor. Ever since the surgery I have had marked pain and tenderness in the abdominal region. After Dr. Kaufman treated my abdomen my tender areas disappeared! My abdomen sized decreased! I had also suffered from constipation, after the treatment, that night I had 3 bowel movements!! This has been an emotional subject for me because when the surgeon made the incision, the mass ruptured and I could have died.” **Helen M. Branch, L.M.T. Sequin, Texas**

“I have had ringing in my left ear, constant, for about 2 months. I am a chiropractor and have been adjusted by other chiropractors without much success. I have felt as if I have to pop my ears, but it doesn't help much. I have also felt as if I have some pressure in the left ear.

“Dr. Kaufman worked on trigger points on my left upper traps with P.N.T. and I felt the pressure that I felt in my left ear get relieved by 50%. He used the Mandibular Reflex to eliminate tender trigger points on the left upper traps.

“It's been 2-3 hours after my treatment for tinnitus, and the pressure I felt in my left ear is completely gone. The ringing is much better. It's decreased and is now intermittent.” **Ahitsha Ortiz, D.C. Orlando, Florida**

“One of my patients had vertigo that started in February, 2012. I got her mostly settled down with what I knew from the vertigo technique, but she has not been able to fully turn her head to the right without initiating the vertigo. I did the new Vertigo/Upper Cervical Correction and she was immediately able to fully turn her head in right rotation with absolutely no vertigo!!! She cried, I cried, and everyone in the clinic had to know what we had done. Everyone cheered, and two people cried with us... It was amazing and worth every bit of the price of the seminar!!!!” **Kathi Perry, D.C. Spring, TX.**

“I have had moderate restriction and mild pain in my right shoulder for over twenty years since shoulder surgery, despite previous attempts to correct the condition (chiropractic, physiotherapy, etc). In just one treatment by Dr.. Kaufman of approximately one minute duration, to my and everyone's amazement, full range of motion was restored to my shoulder. This was after twenty years! This is truly medical magic!” **Jeffrey Marston, D.C. Mandeville, LA**

“I was treated for severe abdominal and sciatic sacrum pain. And I feel freed from the pain @ 85% with the first session, and only 5 hours after the treatment. The pain is going away hour after hour.” **Abraham I. Fofana, L.M.T. Austin, Texas**
